HAMMER AND NAILS GALLERY WALK

Take a tour of the school construction process!

TABLE 1: TREMCO

*Roofing and Building Maintenance Products and Service*s
Comprehensive roofing and waterproofing company specializing in predictable budget models and diagnostic services used for capital planning and maintenance projects. Tremco has 5 local teams throughout Virginia serving the roofing and waterproofing needs of local schools for the past 40 years.

TABLE 2: MCCLURE

Capital Improvement Sustainability Partner
McClure Company partners with school superintendents to improve facilities while minimizing disruption to learning. We deliver fully integrated facility renovation solutions through in-house engineering, construction, and guaranteed energy savings, providing a single point of accountability and predictable outcomes. Our long-term, transparent approach helps districts modernize aging infrastructure, manage risk, and support educational and fiscal goals, because when you need results you can rely on, it's a McClure job.

TABLE 3: HOWARD SHOCKEY

*Large, complex, and multi-phased project*s
Shockey builds millions of square feet of K-12 space in the Commonwealth. Every year. It's what we've been doing for more than a century. We deliver large, complex, and multi-phased new construction, renovations, rehabilitations, and additions. Shockey provides design-build, CM at Risk, and P3 options — in addition to traditional general contracting services. Even if your project is years away, it's not too early to get started by determining the best construction delivery process. Our preconstruction specialists are ready to help evaluate the best solutions for your school district.

Table 4: RRMM

Full-service architecture, planning and interior design firm
RRMM Architects is an award-winning, full-service architecture, planning and interior design firm, serving all of Virginia with offices located in Arlington, Chesapeake, Richmond and Roanoke.

TABLE 5: JOHNSON CONTROLS

Capitalize on Funding for New Construction and Major Renovation
Johnson Controls' Sustainable Infrastructure Segment supports public school divisions via Public Private Partnerships, As A Service Models and Contingency Payment Options for new school construction or major renovation. Supporting Virginia Public Schools for 120 years. Our Sustainable Infrastructure Segment can help your division during this difficult funding climate.

TABLE 6: CITADEL SCIENCES

Construction Strategies for Virginia's New Air Quality Law
Effective July 1, 2025, HB 2618 / SB 1413 (Chapter 668) transforms school air quality into a public accountability scorecard, requiring board-level reporting for every facility. This tactical briefing shows you how to turn this "unfunded mandate" into a strategic lever for renovation planning and securing capital funding through data-driven self-advocacy. Equip your team with the "Compliance Without Surprise" framework to own your data and protect your budget before the statutory deadline.

TABLE 7: SCHNEIDER ELECTRIC

TABLE 8: HONEYWELL

Futureproofing your life safety systems
Fire is an important part of new construction. How to install technology that will protect your students and structure for years.

TABLE 9: CARRIER

HVAC and more!
Carrier has proven success in providing solutions for schools across HVAC equipment, building automation systems, digital solutions, and services. Carrier solutions can be catered to match the unique requirement of each school and district throughout solution lifecycles from design to commissioning to ongoing service.
